

## IRS ADDS MORE NE COUNTIES FOR FEDERAL FILING RELIEF; NEBRASKA ADDS REQUIRED ZIP CODES TO ITS RULING ON TAX RELIEF

Since our last Tax Update on March 26, 2019, both the IRS and the Nebraska Department of Revenue have issued revised relief updates for Nebraska residents impacted by the severe weather in March. The IRS added 6 more counties to its initial list, whereby residents and businesses located in these counties receive automatic relief with a revised due date of July 31 for Federal filings and payments due. Nebraska provides the same relief if your home or business is located in these counties. However, Nebraska also requires your residence or business to be located in one of the zip codes named by the NE Tax Commissioner within these counties. Not all zip codes within these counties have been named.
